

**COME
CELEBRATE
COMMUNITY**

**AIDS WALK
LOS ANGELES**

WITH US

**SUNDAY, OCT 18, 10:30AM
WEST HOLLYWOOD PARK**

When we walk together, we send a message the world can't ignore. AIDS Walk Los Angeles is more than a fundraiser – it's a stand for something simple: that lifesaving care should reach everyone, not just those who can afford it. This year, as funding for critical services faces new threats, we're turning our shared strength into action and demanding a future where no one is left behind.

HIV is now preventable and treatable. But that progress only counts if people can actually get the testing, medication, and care that make it possible.

By backing our team, you help APLA Health keep that care within reach – preventing new HIV infections and supporting people living with HIV through treatment, housing, and vital food assistance.

The biggest risk to four decades of progress is the belief that the work is done. It isn't. When you walk with us, you're helping defend the care our communities depend on and demand the access everyone deserves.

It's easy to join us! Visit **AIDSWALK.LA** to RSVP and walk with our team at AIDS Walk Los Angeles.
